Duggal's specialized market of **"printing for fashion"** focuses primarily on serving the modeling, photography, styling, hair/make-up and acting industries. Our team of experienced technicians and sales representatives with over 20 years in the fashion print industry will guide you through the entire process to ensure the highest quality and satisfaction.

We offer a **vast array of quality products** from composites, headshots, postcards, and brochures to customized portfolios and lookbooks at competitive prices. Specialty books are a great one-of-a-kind mail out, leave behind or marketing campaign that will make lasting impressions. These books come in either a hard or soft cover and with a wide selection of materials, colors, page count and binding variations to present individual works of art.

An **extensive array of papers and substrates** are available including fine art papers, acetates, pressure sensitive paper and vinyl, and glossy, silk, or uncoated papers in weights up to 130lbs (350 gms). We can print in 7 colors (including spot colors) on both sides of the sheet up to 11.75" x 17.40".

Other **exotic materials** like canvas, foil, and static cling materials are also available upon request. A fully equipped bindery operates on premises offering trimming, die scoring, folding, saddle stitching, wire-o and hard cover binding in a variety of materials including environmentally friendly materials.

Duggal's laser cutter/etcher widens the **spectrum of creativity** even further for either the corporate or creative look agencies need. We can create unique imagery printed or etched on wood, glass, plastic or metal.

CUSTOM COMPOSITES AND BOOKS

Stunning quality prints on a **large selection** of materials ranging from FSC certified, Glossy, Silk, or Uncoated papers to specialty materials like Canvas and Foil.

In line Aqueous and UV Coating are also available to add a slick protective layer to your prints.

Unparalleled color gamut and double sided printing in seven colors up to 11.75" x 17.40" will give you the ability to turn your vision into visuals.

CUSTOM RETOUCHING

Our expertise in retouching stems from a long tradition of dye and ink retouching directly onto film and prints. With this intuitive sense of craftsmanship our retouchers have naturally progressed into digital retouching while maintaining their unique artistic approach. Our retouched images grace the covers of magazines and spearhead advertising campaigns for major retailers worldwide.

EXHIBITION DESIGN + CUSTOM DISPLAYS

Duggal partners with each client to understand the full scope of each project and then creates custom solutions for both printing and presentation. This individualized approach allows us to experiment with new materials and lighting and has enabled us to introduce revolutionary products in the fashion and display industries. We print on everything from fine fabrics to custom wallpaper and carpeting. Other innovative products include our exclusive Metallized printing on brushed aluminum and copper, 3D and lenticular flip printing, & custom environmentally friendly LED displays.

We are fully equipped to handle both next day projects and large volumes for national store rollouts. Duggal has the ability to design, print, build, and install all in house so we can offer stunning exhibitions at reasonable prices. Our custom exhibit solutions include CAD design, 3-D Visualizations, archival photographic printing, gallery finishing and mounting, fabricating custom displays and installing them worldwide.

For over 45 years Duggal has been the leading supplier of printing, computer imaging, wide format and display services. With the latest addition to our family of digital offset printing, Duggal now bridges the gap between fashion and fine art printing.

Our constant investment in new technology opens the door for endless possibilities to serve the fashion industry.

The Duggal Headquarters, in the heart of the FlatIron District, showcases many of our innovative printing and custom display products. Clients regularly visit our showroom to discover unique and creative approaches to visual communication. We invite you to visit us any time of the week.
